Dr. Itzhak Kornfeld, an Israeli native, advises governments and non-governmental organizations on the legal and geological aspects of water development, water sustainability and sustainable development of land. He has also taught water law and international law courses at a number of law schools.

Dr. Kornfeld earned a J.D. from the Tulane Law School, where he was a member of the founding body of the Tulane Environmental Law Journal and its second articles editor. He also holds degrees in geology and has worked as a field geologist. He has authored four books, including one on transboundary water disputes, published by Cambridge University Press in 2019, and a book in press on mega-dams and human rights. He also published seven book chapters and approximately 40 articles on water issues, oil & gas, and environmental subjects.
